**Subject : Non-functioning of Deep Freezer / Walk in Freezer in
SHQ complex Galley since last two years.**

Respected sir,

We are in a receipt of complaint from crewmembers of SHP regarding Non-functioning of Deep Freezer / Walk in Freezer in SHQ complex Galley since last two years. This has resulted in decaying early of all materials stocked in them, which may result in food poisoning. At present there is only one additional galley in SHW, which cannot accommodate all food items of both the galleys.

As you know early decaying of perishable items or non-veg items results in shortage of food for the persons on board, is naturally causing immense inconvenience.

It is very surprising and painful to note that since last few days vegetable baskets are placed in the dining hall, which decays soon and will not only spread foul smell, is unhygienic for the health of crew members on board, we are only nose-diving into a unsafe working condition. It is reported that every day more than 200 persons are on board including regular employees and contractor workers.

Sir in two years if a freezer can not be repaired, is either mockery of maintenance department or the equipment is beyond repair, which is more likely looking into the tenure, it has already given service, if a view is already taken to replace the same, then we would like to draw your attention that concerned authorities sitting in the office should be held accountable.

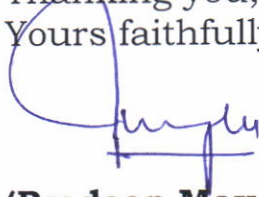

:: 02 ::

To get good hygienic food for the crewmembers should be our utmost priority, but for this, all Gadgets in the kitchen on platform should be in good operational conditions and this is a basic requirement of catering contractor also.

We earnestly request your esteemed authority to look into the matter to resolve the issue. Such negligence or delay could have been avoided by taking prompt action and cannot be compromised.

Writing such a letter to your esteemed authority who is always worried and busy to arrest declining production of Oil & Gas is painful to us but we have no alternative left at our disposal by the concern authorities that may please be noted. Your intervention would be highly appreciated.

Thanking you,
Yours faithfully,

(Pradeep Mayekar)
General Secretary

Sub: Non functionality of Deep Freezer/Walk in Freezer in SHQ Complex's galley since last two years.

With due respect we would like to bring to your notice that both the deep freezer/Walk in freezer (i.e. for Veg & Non veg) in SHQ galley is not operational since last two years, the compressor is damaged in both the cases, this has resulted in various problem like early decaying of veg & non veg items which are bought once in a week through food box, as there is only one additional galley in SHW, it cannot accommodate all the food items for both the galley in its freezer this has further resulted in shortage of food items for the resident of SHQ complex who are using SHQ dining hall. Since last few days vegetable baskets are placed in the dining hall (already started smelling) as if kept in the freezer the vegetables can decay in 2-3 days. It is also mentioned daily 192 persons (44 –ONGC +108 -Contractor + 40 –Catering) are eating in SHQ dining hall daily. Hence we request to kindly look into this matter urgently and take necessary steps to solve this issue.
